The Eagle Inn, in the Santa Barbara residential West Beach neighborhood, provides comfortable accommodations two blocks from the beach and a short stroll from the harbor, Stearns Wharf and State Street.

The Eagle Inn is proud to offer accommodations that are unique, well appointed and spacious. Our rooms have a variety of styles, amenities and price points. From our economical standard rooms with one queen-size bed to our casitas (little cottages) that feature fireplaces, two-person whirlpool tubs, private patios and breakfast in bed. No matter which room you choose, you're sure to be comfortable.

Since its inception in 1981, The Eagle Inn has been a family-owned-and-operated business. This continuity has fostered quality and personal touches rare in other hotels such as fresh baked cookies in the lobby each afternoon and beach cruisers at your disposal. You will depart feeling spoiled and rejuvenated.

Our rooms offer every convenience. You'll find wireless Internet, flat-screen TV, DVD player, coffee maker, microwave, mini-fridge, safe, hair dryer, iron and board and attractive bathroom. Staying at The Eagle Inn means having all the comforts of being at home, but never having to make the bed!

A complimentary breakfast awaits you each morning in our beautiful dining room, or you can sit outside and enjoy it on an intimate patio. Our two-course menu changes daily, but we always offer fresh fruit (organic when available) and coffee, tea or espresso. Each day there is a savory dish such as quiche or bagels and smoked salmon. Home-made granola, organic yogurt and oatmeal are also available.

Why not indulge yourself in one of our deluxe rooms, where you can relax by your fireplace in a whirlpool tub for two. Or step out on your private balcony and sip a Santa Barbara Pinot Noir or sample a local beer while marvelling at the colors of the evening sky. As each day concludes, you will look forward to a deep and restful sleep on a premium pillow-top mattress and sumptuous linens.

Our casitas cater to guests seeking romance, luxury and privacy. Adjacent to the main hotel building, the casitas are like your own condo just a few blocks from the beach. Let us delight your loved one with a Romance Package of roses, sparkling wine and chocolate-dipped strawberries. Or share an in-room massage after a day of touring our local wineries; however you spend your visit, you will feel pampered.
